

Central Accounts Tracking Tool

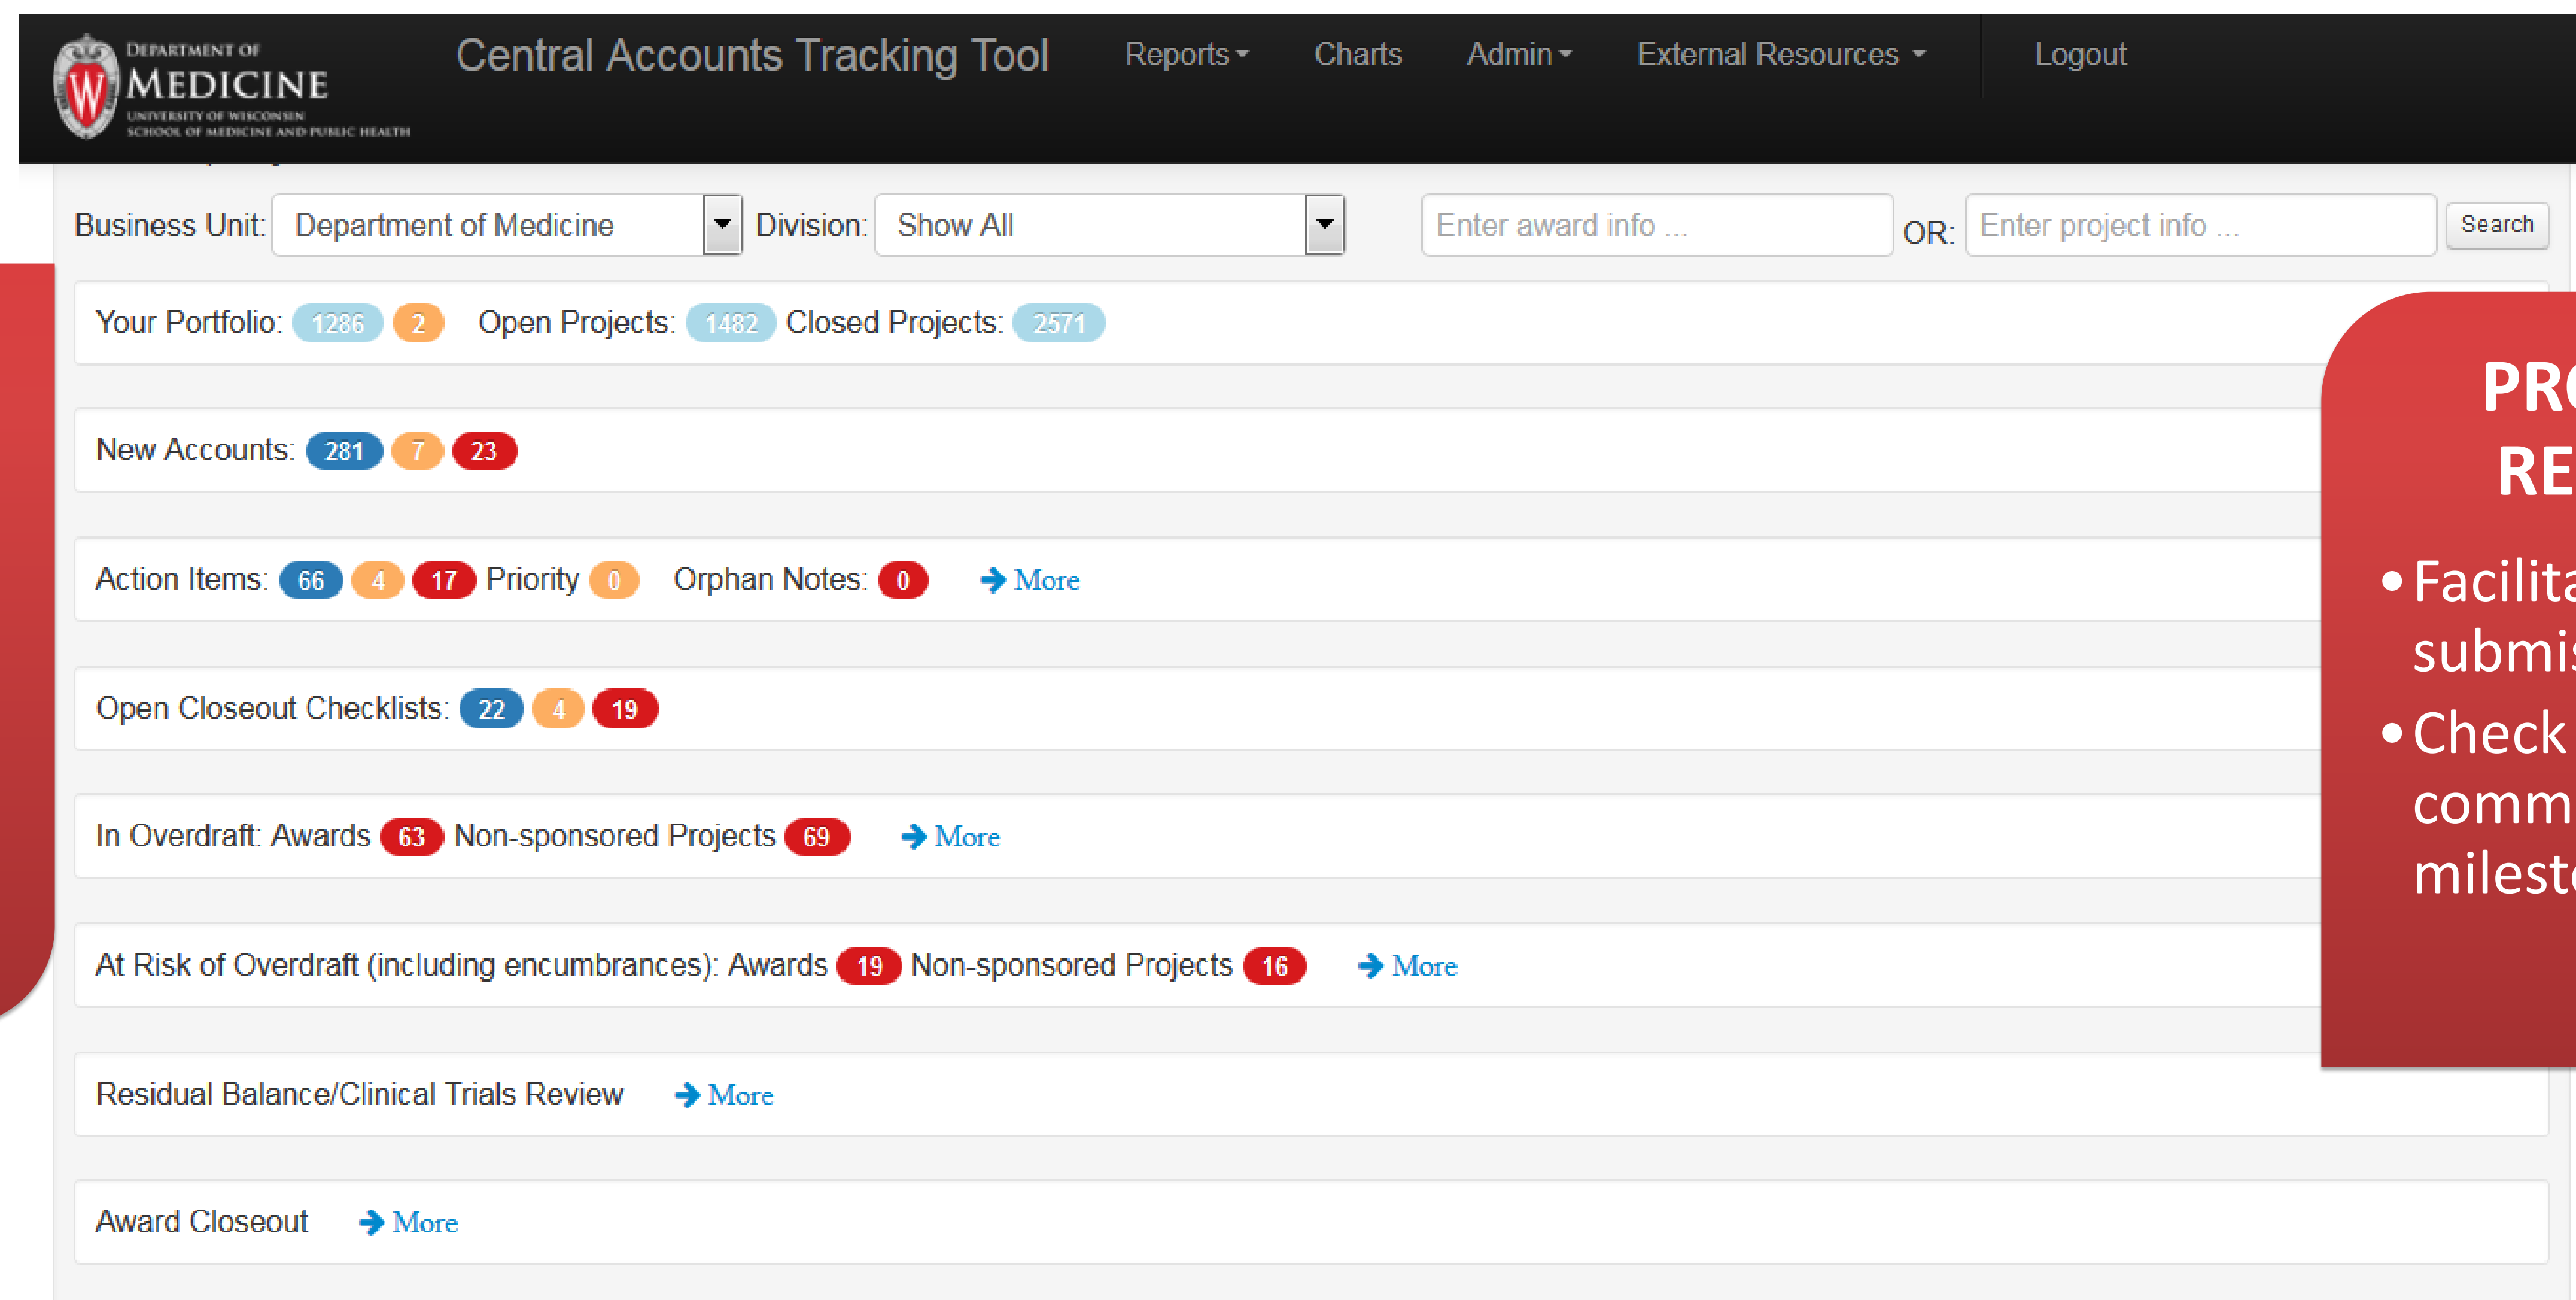

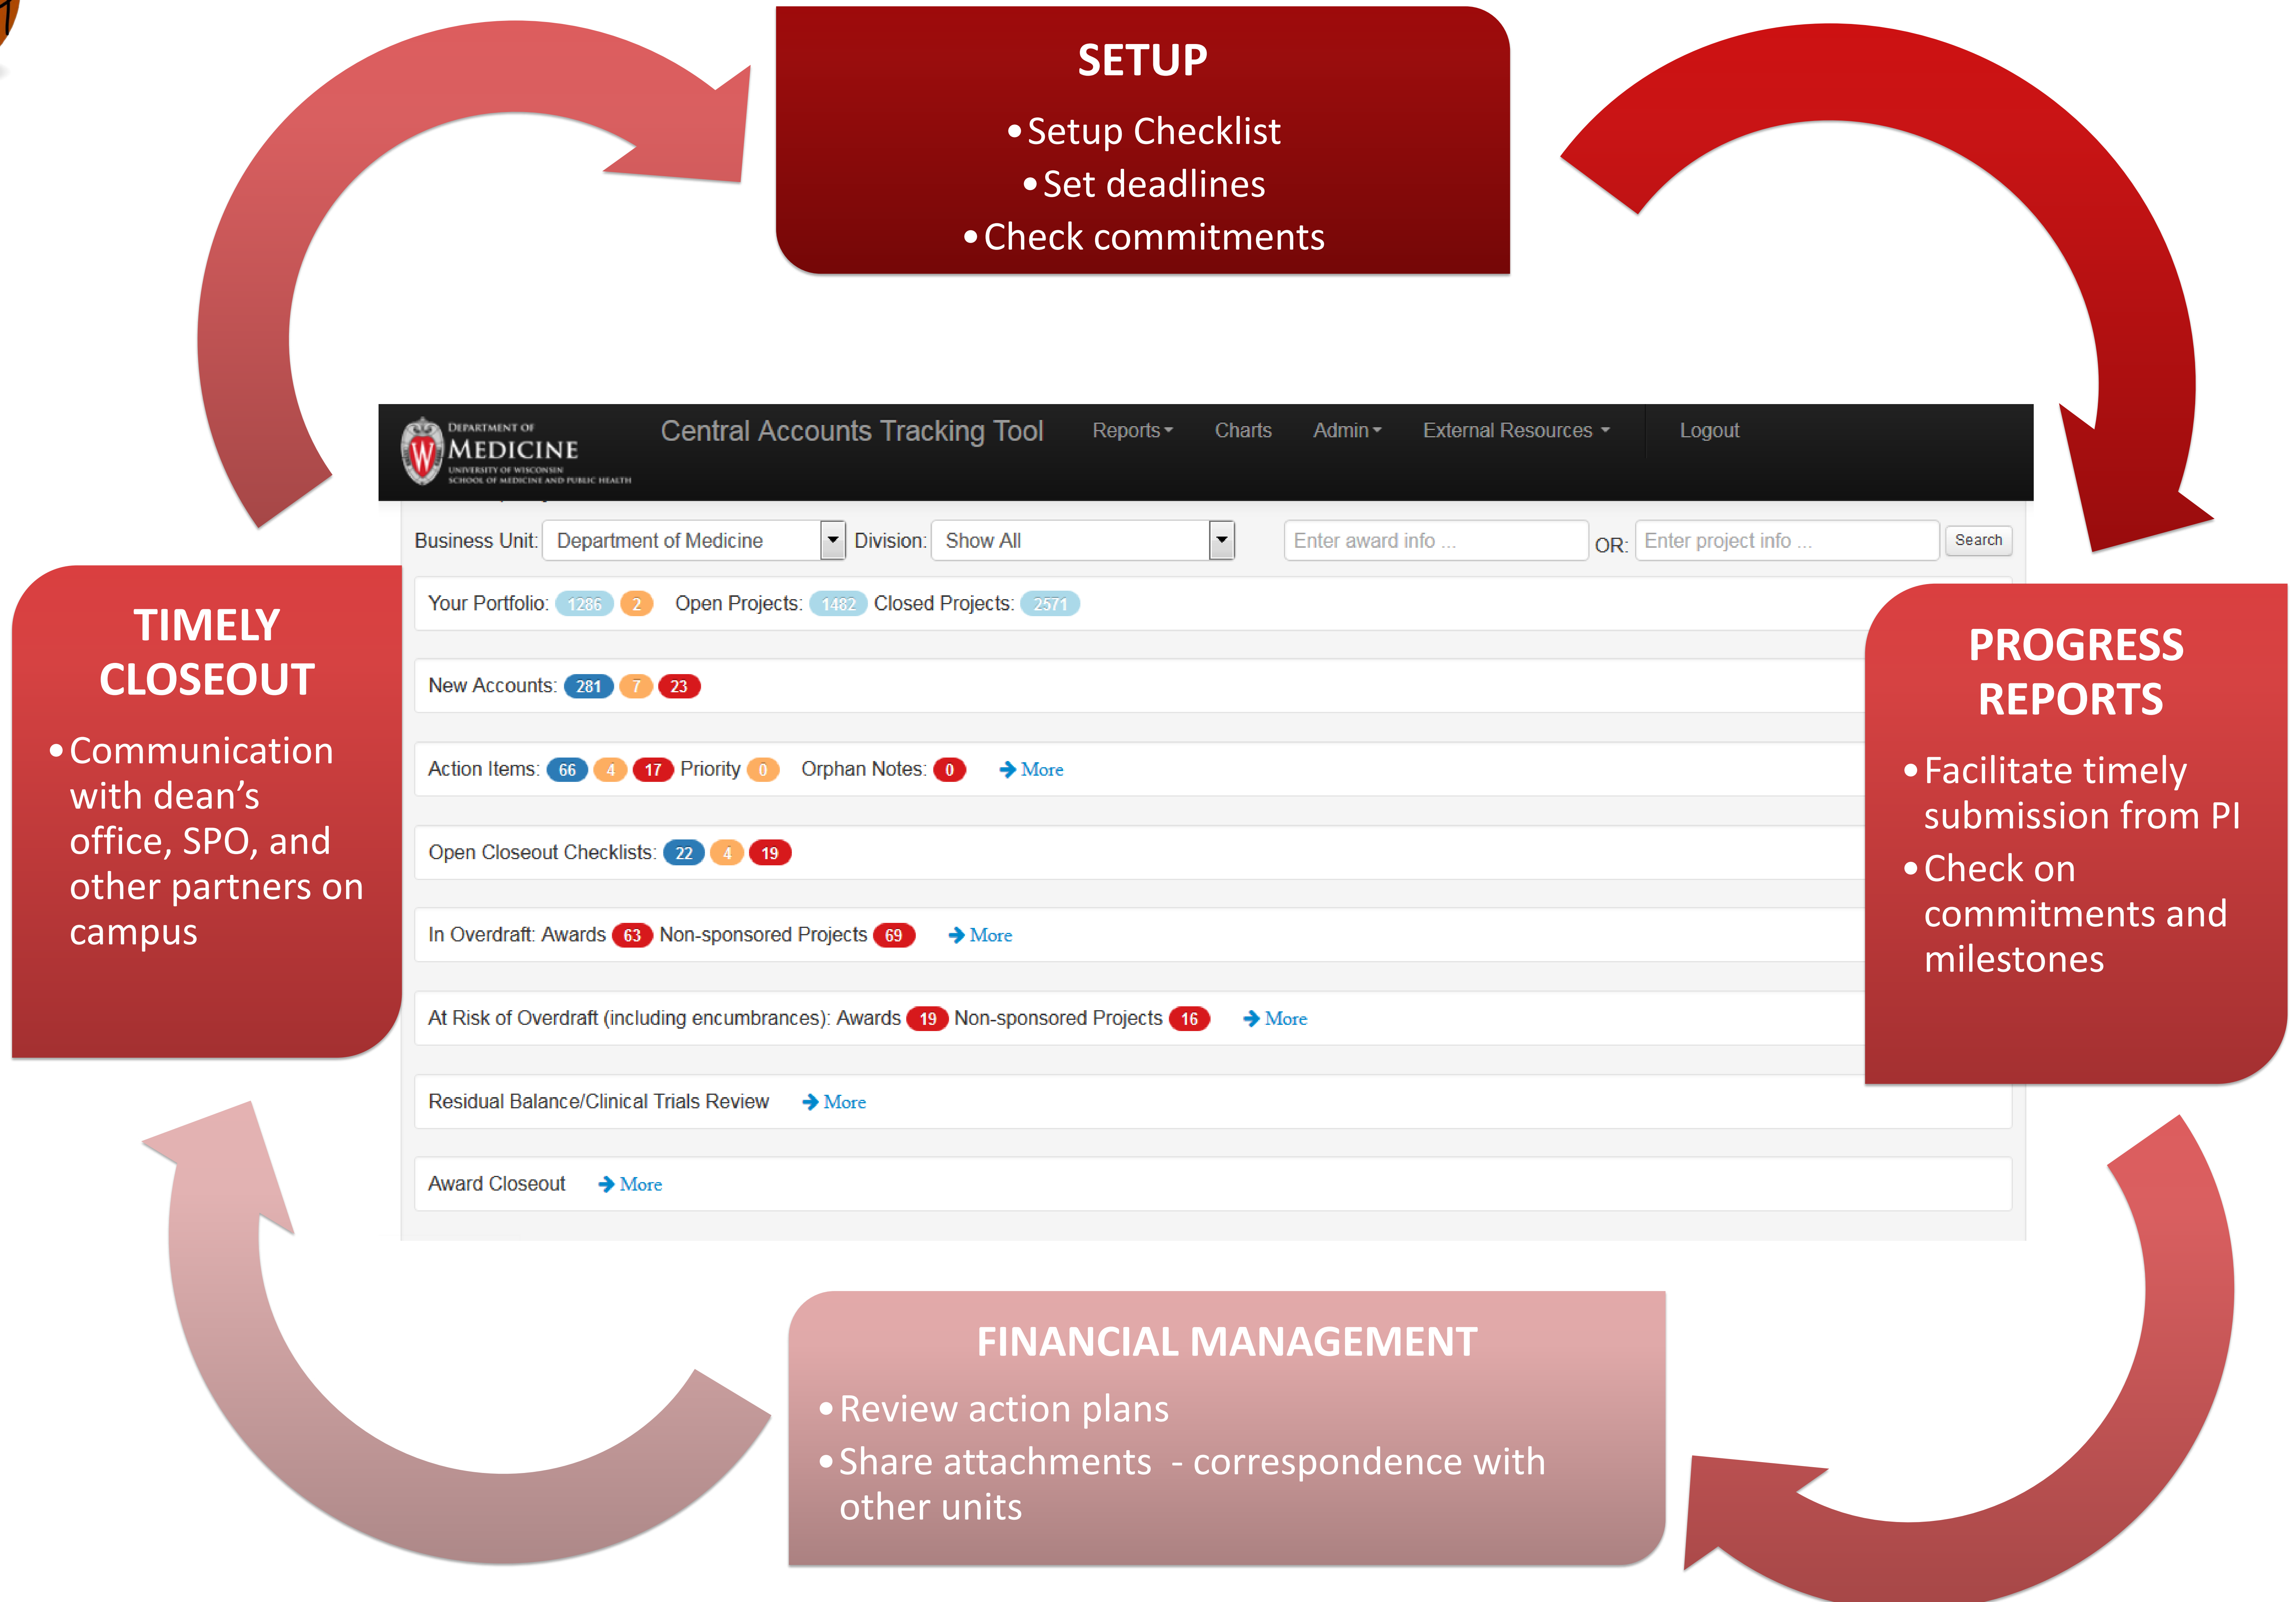

Fostering Teamwork & Improving Workflow

What is CATT?

- A web-accessible financial management dashboard developed by the Department of Medicine
- Built for use by department staff, our partners (Dean's Office, Graduate School, Sponsored Projects Office) and other campus operating units

Enhancing the Research Administration Experience

- Results-driven accountability framework
- A customized work-list for the individual user to prioritize and manage workflows
- Facilitating communication and collaboration between the department and our partners
- Standardizes the award closeout process and automates certain manual processes
- Tracking non-financial sponsor required deliverables
- Storing correspondence and historical information in a single integrated system
- Providing management reports to assess portfolio performance

Experience from Other Departments on Campus

*It's great having an online Dashboard where you can quickly see any current and future potential issues!
The ability to add notes and attachments online is very helpful to keep track of certain gift and miscellaneous accounts.*
