*“Even beyond energy, from the National Institutes of Health to the National Science Foundation, this recovery act represents the biggest increase in basic research funding in the long history of America’s noble endeavor to better understand our world. Just as President Kennedy sparked an explosion of innovation when he set America’s sights on the moon, I hope this investment will ignite our imagination once more, spurring new discoveries and breakthroughs that will make our economy stronger, our nation more secure, and our planet safer for our children.”*

President Barack Obama  
February 17, 2009

# ARRA: NSF Budget Highlights

- \$3 billion supplemented FY 2009 funding:
  - \$2 billion for research and related activities for proposals that were reviewed and/or awarded prior to September 30, 2009.
  - \$1 billion dedicated as specified in ARRA.

# ARRA: Specified Programs

- Academic Research Infrastructure \$200 million
- Major Research Instrumentation \$300 million
- Robert Noyce Teacher Scholarships \$60 million
- Math and Science Partnerships \$25 million
- Science Masters Program \$15 million
- Alaska Region Research Vessel \$148 million
- Ocean Observatories Initiative \$106 million
- Advanced Technology Solar Telescope \$146 million

# ARRA: Transparency and Accountability Requirements

- The OMB expectation is for a high level of accountability and transparency from both agencies and recipients.
- Higher scrutiny from:
  - Administration
  - Congress
  - Public
  - Recovery Act Accountability & Transparency Board
  - NSF Office of the Inspector General (OIG)

# ARRA: NSF Funding Prioritization

- Recovery Act funds were to be awarded in a timely manner. NSF made 4,712 awards totaling \$2.6 B to more than 800 institutions by February 28, 2010.
- All grants were issued as standard grants with durations of up to five years.
- Funding of new PIs and high-risk, high-return research were top priorities.
- Only four ARRA-specific solicitations were released.
- NSF considered proposals declined on or after October 1, 2008, and made 318 awards from this pool.

# The American Recovery & Reinvestment Act

## NSF Award Conditions & Recipient Reporting Basics

# NSF ARRA Implementation

- Reporting and Accountability Requirements & Special Award Conditions:
  - Awards identify funding coming from ARRA and should be considered as one-time funding.
  - Within 10 days following the end of each quarter, the recipient must report in accordance with Section 1512c of the Act.
    - Exemptions from reporting include awards to individuals & awards less than \$25,000
  - Funds must be separately tracked and monitored independently of non-ARRA funding.
  - NSF will monitor ARRA funds, and, if, after 12 months, no allowable expenditures have been incurred, NSF will consider reducing or terminating the award and reallocating the funds.

# ARRA Recipient Reporting

Each NSF award that includes ARRA funding requires the recipient to submit quarterly reports to a central Federal website.

## Quarterly Federal Data Quality Review:

### Stage 1 (1-30 days)

- Non Reporting (Omissions)
- Significant Errors

Results communicated to recipients through [federalreporting.gov](http://federalreporting.gov) and SPO to make changes

### Stage 2 (30 – 60 days)

- Automated Data Checks
- Program Officer Reviews
- Federal Financial Report

Results communicated to recipient, to improve next quarter reporting

# NSF's Stage 1 Review Process

- “Non-Compliant” Awards
  - A list of non-reporting awards and recipients is sent to OMB, Recovery Act Board and our OIG.
  - Two time non-reporters are receiving high scrutiny
- *Reported data* is screened to identify significant reporting errors. Fields reviewed are in 5 data elements:
  - Award Number
  - Amount of Award
  - Recipient Name/DUNS
  - Number of Jobs
  - Total Amount of ARRA Expenditure

# NSF Stage 2 Review Process

- Agencies are required to continuously evaluate recipients for compliance with ARRA Section 1512 requirements and the requirements of the OMB implementing guidance.
- Data Screening - Reported data is screened for “Major 2-” and “Minor” Issues (31 items)
- Sampling PO review - A statistical sample of reports will be selected to review fields that cannot be reviewed through screening. Fields include: Award Title, Award Description, Quarterly Activities/Project Description, and Description of Jobs Created
- Expenditure check - Reported expenditure data is compared against FFR submission for that quarter.
- Recipient notified at end of quarter via e-mail to make corrections next quarter

# ARRA Recipient Reporting: First Quarter Results

- NSF ARRA Reporting 98%!
- Total of 107 out of 4,502 awards did not report
  - 107 awards at 87 institutions
- No Uncorrected Significant Errors
  - All errors noted by NSF on [Federalreporting.gov](http://Federalreporting.gov) were corrected by 29<sup>th</sup>.

# ARRA Recipient Reporting: Second Quarter Results

- Communicated reminder to report; recipients that did not report received three reminders in January 2010
- Due date extended from January 10<sup>th</sup> to 22<sup>nd</sup>
- Federal Review January 24<sup>th</sup> to 29<sup>th</sup>
- NSF ARRA Reporting 99.6%!
- Total of 15 out of 4,535 awards did not report
  - 15 out of 820 institutions
- Less than .1% Uncorrected Significant Errors (5)

# ARRA Recipient Reporting: Guidance Changes

- M- 10-08 dated 12/18/09 “ Updated Guidance on ARRA – Data Quality, Non Reporting Recipients and Reporting of Jobs Estimates.”
  - More prescriptive federal data quality guidelines
  - Job estimates
    - Change to quarterly reporting
    - Definition change – report jobs created/retained that were funded with ARRA funds that quarter

# ARRA Reporting Requirements – 99 data elements

- Federal Funding Agency
- Award identification
- Recipient D-U-N-S
- Recipient CCR information
- CFDA number
- Recipient Congressional District
- Recipient account number
- Project/grant period
- Treasury Accounting Symbol
- Award type, date, description, & award amount
- Total Federal Amount of ARRA expenditures
- Quarterly activities/project description
- Project description and status
- Job narrative and number of jobs created/retained
- Infrastructure expenditures and rationale, if applicable
- Recipient primary place of performance
- Recipient area of benefit
- Recipient officer names and compensation (Top 5)
- Total number and amount of small sub-awards; less than \$25,000

# ARRA Recipient Reporting: Frequent Issues & Errors

- Most Frequent Issues:
  - Incorrect Data that cause federal agencies to not receive your report - Award Number, Agency Code
  - Submission issues – registration, draft
  - Duplicate reporting
- Top 4 Errors
  - Award Number
  - Award Date
  - Treasury Account Symbol
  - Expenditure Amount
- Don't change prior quarters – fix prospectively unless a significant error.

The screenshot shows the NSF website header with the logo and tagline "WHERE DISCOVERIES BEGIN". A search bar is visible with "NSF Web Site" selected. The navigation menu includes: HOME | FUNDING | AWARDS | DISCOVERIES | NEWS | PUBLICATIONS | STATISTICS | ABOUT | FastLane. The main content area is titled "Recovery Act Recipient Reporting Information".

**Recovery Act Recipient Reporting Information**

In accordance with Section 1512 of the American Recovery and Reinvestment Act of 2009 (ARRA), all awards funded by ARRA require quarterly reporting through FederalReporting.gov. This reporting system was developed to serve as a central tool that will be used by recipients to transmit information on projects and activities funded by ARRA. This tool will be used for recipient reporting only, however, reports and information submitted through FederalReporting.gov will be made available to the public on the Recovery.gov website to achieve an unprecedented level of transparency into how Federal funds are spent.

**ARRA RECIPIENT REPORTING REQUIREMENTS**

Section 1512 requires awardees to submit a quarterly report no later than 10 calendar days after each calendar quarter in which the recipient receives the award (Jan 10, April 10, July 10, and Oct 10). Reports are cumulative each quarter and include information such as the award number, award amount, award description, primary place of performance, project status, and number of jobs created/retained.

**REGISTRATION WITH FEDERALREPORTING.GOV**

Recipients must be registered as authorized parties prior to submitting reports on [FederalReporting.gov](http://FederalReporting.gov). The registration function will be available no later than August 17, 2009. Thereafter, prime recipients, delegated sub-recipients and Federal agencies can register on the website. Since prime recipients must be registered in the Central Contractor Registration (CCR) database, and all reporting entities must have a DUNS number, reporting recipients who do not already meet these requirements should take **immediate steps** to prepare for registration. Registration occurs only once, prior to the first reporting cycle.

**OMB GUIDANCE**

On December 18, 2009, OMB issued "[Updated Guidance on the American Recovery and Reinvestment Act - Data Quality, Non-Reporting Recipients, and Reporting of Job Estimates](#)" (M-10-08). This updated guidance incorporates lessons learned from the first reporting period under the Recovery Act, and includes further instructions for recipients to report job estimates on a quarterly, rather than a cumulative basis. On June 22, 2009, OMB issued "[Implementing Guidance for the Reports on Use of Funds Pursuant to the American Recovery and Reinvestment Act of 2009](#)" (M-09-21). The document provides government-wide guidance for carrying out the reporting requirements included in Section 1512 of the American

The following information is provided to assist NSF recipients in consistent and quality data quarterly reporting under ARRA. This chart provides a cross-walk of the data elements listed in the Recipient Reporting Data Model issued by OMB in the Final Production Release v.3.0. Guidance. The data model, however, has been modified to include only those data elements that are applicable to NSF assistance awards. In an effort to ensure data quality and to assist recipients in reporting accurate data for ARRA quarterly reports, NSF is providing additional information, where appropriate, for use by the recipient. Following this additional guidance will assist NSF in reviewing recipient reports. As new information becomes available, this document will be updated accordingly.

Many of the data elements that are required to be submitted in the quarterly recipient reports can be found on Research.gov, ([www.Research.gov](http://www.Research.gov)) using the Research Spending and Results Service. From the main page of Research.gov, click the Research Spending and Results link to navigate to the search page. ## NSF Implementation Activities

NATIONAL SCIENCE FOUNDATION

# SEC 7008: Postdoctoral Research Fellows

- “Mentoring - The Director shall require that all grant applications that include funding to support postdoctoral researchers include a description of the mentoring activities that will be provided for such individuals, and shall ensure that this part of the application is evaluated under the Foundation's broader impacts merit review criterion. Mentoring activities may include career counseling, training in preparing grant applications, guidance on ways to improve teaching skills, and training in research ethics.
- Reports - The Director shall require that annual reports and the final report for research grants that include funding to support postdoctoral researchers include a description of the mentoring activities provided to such researchers.”

# SEC 7008: Postdoctoral Research Fellows

## NSF Implementation:

- Each proposal that contains postdoctoral researchers must include, as a supplementary document, a description of the mentoring activities that will be provided for such individuals. The mentoring plan must not exceed one page.
- This one-page limitation also is applied to proposals with subawards, and, separately submitted collaborative proposals.
- The Return without Review section and the Proposal Preparation Checklist emphasize that proposals that do not describe mentoring activities provided to postdoctoral researchers **will be** returned without review.

# SEC 7009: Responsible Conduct of Research

“The Director shall require that each institution that applies for financial assistance from the Foundation for science and engineering research or education describe in its grant proposal a plan to provide appropriate training and oversight in the responsible and ethical conduct of research to undergraduate students, graduate students, and postdoctoral researchers participating in the proposed research project.”

# SEC 7009: Responsible Conduct of Research

- Implementation Plan:
  - While training plans are not required to be included in proposals submitted, institutions are advised that they are subject to review upon request.
  - NSF modified its standard award conditions to clearly stipulate that institutions are responsible for verifying that undergraduate students, graduate students, and postdoctoral researchers supported by NSF to conduct research have received RCR training.
  - NSF will support the development of an on-line digital library containing research findings, pedagogical materials, and promising practices regarding the ethical and responsible conduct of research.

# SEC 7009: Responsible Conduct of Research – Status Update

- Formally implemented the RCR requirement in the revised Proposal & Award Policies & Procedures Guide (10-1)
- Effective for proposals submitted on or after January 4, 2010
- Applicable Sections in the GPG and the AAG updated
- Certification Screen in FastLane has been revised to incorporate the RCR Certification

# SEC 7010: Reporting of Research Results

- Section 7010 requires that all final project reports and citations of published research documents resulting from research funded, in whole or in part, by the Foundation, are made available to the public in a timely manner and in electronic form through the Foundation's Website.

# SEC 7010: Reporting of Research Results

- The new report will be prepared and submitted via Research.gov. PIs will be required to prepare a summary – specifically for the public – on the nature and outcomes of the award.
- Implemented via revisions to the NSF Agency Specific Requirements to the standard Grant Conditions
- Effective January 4, 2010, new awards and funding increments to existing awards incorporate the new requirement.

# Section 7013: Cost Sharing

- NSB Cost Sharing Report
  - ACA directed NSB to evaluate decision to eliminate cost sharing
  - This is the second report issued by the NSB which contains a comprehensive set of recommendations to be addressed.

## NSF Information Related to the American Recovery and Reinvestment Act of 2009

### OVERVIEW OF THE AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009 (RECOVERY ACT)

The American Recovery and Reinvestment Act of 2009 (Recovery Act) was signed into law by President Obama on February 17th, 2009. It is an unprecedented effort to jumpstart our economy, create or save millions of jobs, and put a down payment on addressing long-neglected challenges so our country can thrive in the 21st century. The Act is an extraordinary response to a crisis unlike any since the Great Depression, and includes measures to modernize our nation's infrastructure, enhance energy independence, expand educational opportunities, preserve and improve affordable health care, provide tax relief, and protect those in greatest need.

My Administration is committed to creating an unprecedented level of openness in Government. We will work together to ensure the public trust and establish a system of transparency, public participation, and collaboration. Openness will strengthen our democracy and promote efficiency and effectiveness in Government.

# NSF Open Government

The screenshot shows the NSF Open Government website. At the top left is the NSF logo with the text "National Science Foundation". In the center is the "OpenNSF SHARE YOUR IDEAS" logo. At the top right is the "OPEN GOV WHITEHOUSE.GOV/OPEN" logo. Below the logos are links for "Login / Signup" and "Accessibility". The main content area features the text "SHARE. DISCUSS. VOTE." in large red letters. To the right of this text is a call to action: "Give us *your* ideas on how we can create our Open Government Plan." Below this is a section titled "This plan will help NSF:" followed by a bulleted list of three points: "Improve the availability and quality of information", "Work better with others inside & outside the government", and "Be more efficient & innovative". Below the list is a "Learn More..." link. At the bottom of this section is the text "Ideas will be accepted until March 19, 2010." and two blue buttons: "Share an Idea" and "Discuss & Vote on Ideas". To the right of the text is a graphic of four speech bubbles containing the words "Participate", "Innovate", "Transparency", and "Collaborate".

## FEATURED DATASETS:

### OPEN GOVERNMENT DIRECTIVE AGENCY DATASETS

On December 8, 2009, the White House issued an historic Open Government Directive (OGD), instructing Executive Departments to publish three high-value datasets online within 45 days. The Open Government Datasets showcase the high-value data sets agencies have published to fulfill the Directive and thereby increase accountability, promote informed participation by the public, and create economic opportunity.

# Application Submission Web Services

- **NSF is working with institutions to pilot an application submission service**
  - Consistent with Grants.gov framework for system-to-system
  - Provides applicants with a seamless experience for submitting proposals via web services to Research.gov and Grants.gov
  - Leverages Research and Related data standard grantees are familiar with
  - Lays ground work for future opportunities to extend these capabilities to post-award management (e.g., financial and project reporting)
- **Currently in pilot**
  - Available to a limited number of institutions who can apply to select NSF funding opportunities. This ensures the service meets applicant needs before expanding to more institutions and additional funding opportunities
  - Institutions continue to have option to submit grant applications to NSF through FastLane and Grants.gov, as well as Research.gov
- **If interested in participating, contact NSF at [feedback@research.gov](mailto:feedback@research.gov)**

# Project Outcomes Report for the General Public

- NSF's approach to meeting reporting requirements outlined in the America Competes Act of 2007
- PIs/Co-PIs will use Research.gov to prepare and submit a brief summary – specifically for the public – that describes the nature and outcomes of the award
- PIs/Co-PIs will continue to submit Final and Annual Project reports through FastLane

The screenshot shows a web form titled "Project Outcomes Report" for Award ID: 0856755, covering the report period from 10/1/2008 to 9/30/2009. The form includes a "Project Outcomes Report for the General Public" section with a 200-word minimum requirement. A text editor contains placeholder text. To the right, there is a "Related Images" section with a grid of image placeholders and an "Add & Remove Images" button. At the bottom, a "Word Count: 150" is displayed, along with "Cancel", "Previous", "Save", and "Save & Submit" buttons.

# Research Performance Progress Report

- The Research Performance Progress Report (RPPR) was approved by OMB in January 2010
- NSF will use Research.gov to provide a new online service for preparing and submitting this report
  - NSF has a history of success implementing new government standards through Research.gov, including the Federal Financial Report (FFR)
- NSF will initially partner with NASA to deliver RPPR to the research community
